AUSSIE QUIK PRIME
PETROL DRIVE FIRE FIGHTING PUMPS ... SIZE DOES MATTER

FIRE READY

AUSSIE FIRE CHIEF
& Mr T Twin Impeller
Out-perform & out-feature all others!

Genuine Honda GX series

- Metal caps & chains
- Separate replaceable suction flange
- Big 2” suction port
- Big belly body means FAST priming
- Big drain plug
- Steel skids with anti-vibration mounts

Performance...
AUSSIE FIRE CHIEF
Max flow 450 lpm
Max head 75m
5.5HP Honda
Self primes FAST from 7.6m

AUSSIE MR T
Max flow 500 lpm
Max head 95m
9 & 13HP Honda
Self primes FAST from 7.6m

Huge 7 1/2” diameter

The biggest impeller in the business - up to 1.5 times heavier than competitors ... more water & more pressure means more performance!
AUSSIE QUIK PRIME
PETROL DRIVE FIRE FIGHTING PUMPS

The Aussie Fire Chief, the Fire Captain and “Mr T” super high pressure twin impeller fire pumps are regarded as the world’s finest lightweight portable high pressure pumps. The Fire Chief has won significant contracts both within Australia and in export markets.

Extraordinary performance, quality components and ease of serviceability makes the Aussie Fire Chief the choice of farmers and professional fire fighting authorities around the world.

**Aussie Fire Chief (QP205SE)**

Designed to out-perform and out-feature all other portable fire fighting pumps, the Aussie Fire Chief offers significant quality features.

These include a huge 7½” diameter, one piece impeller that weighs 2½ times more than impellers in other brands. The big belly body provides large water passages allowing more water to get through the pump and significantly aiding performance.

The pump will produce flows of up to 450 litres per minute and heads as high as 75 metres. The basic engine is a genuine Honda 5.5HP four stroke engine with oil alert, low oil protection, cast iron cylinder bore in conformance with tough international environmental emission standards. The Fire Chief comes with anti vibration mounts, steel skids and handle as standard.

**Aussie Fireman (QP-2S)**

Taking it’s design principles from the Aussie Fire Chief, the Aussie Fireman is a smart choice for light use applications where the engine is not required to run continually for long periods. It uses a Honda GP series engine with 1 year engine warranty.

**Aussie Fire Captain (QP205S)**

The Fire Captain comes in the same configuration as the Aussie Fire Chief but with heavy duty steel roll frame instead of steel skids. Supplied with anti vibration mounts, the frame provides extra protection for the unit and added ease of transport.

**Aussie Fire Captain Plus (QP205SL)**

A big single impeller Aussie Fire Chief pump but with a 6.5HP, 9HP or 13HP Honda four stroke petrol engine, with oil alert and cast iron cylinder bore. Electric start options available on all models. Standard equipment includes full heavy duty roll frame with pumps delivering up to 510 litres per minute flow, 75 metres head.

**Aussie “Mr T” Twin Impeller Fire Pump (QPT-205SLT)**

The Aussie “Mr T” is the final extension of development of the Aussie Fire Chief. It is a heavy duty twin impeller pump but with a difference!

The huge, closed vane dual impellers create a combination of high pressure and high flow that is unmatched, max head is 95 metres, max flow is 480 litres per minute. The Aussie “Mr T” twin impeller range is available with 9HP or 13HP Honda four stroke engine power as standard equipment with electric start option available. “Mr T” is available with 2” x 2” ports, 2” x 3-way ports (1½”, 1”, 1”)) or with 3” x 3”.

**NEW Mr T 13HP electric start version now available with long range fuel tank (18 litres) …**

**Aussie QP305SL 3” High Pressure Pump**

The 3” version of the Aussie Fire Chief, the QP305SL is available in a wide range of options that provide flows of up to 510 litres per minute and heads as high as 68 metres.
AUSSIE QUIK PRIME
PETROL DRIVE FIRE FIGHTING PUMPS ... SIZE DOES MATTER

Features
- Five year pump end warranty
- Lightweight portable
- Fast self priming from 7.6 metres
- Replaceable flanged suction port cover and discharge elbow
- Honda four stroke GX series petrol engines (3 year warranty). The Honda GP series engine carries a 1 year warranty
- Skids with rubber feet and carry handle as standard on Fire Chief & Fireman
- Full frame with anti vibration mounts on Fire Captain & Mr T versions (option for Fire Chief)
- Single piece, heavy duty closed impeller
- Three way outlet (2" & 3" outlet options)
- Big 2 inch inlet
- Big belly body
- Three way outlet with metal caps with chains
- Big drain port
- Big integrated priming port
- Optional Viton seal and o-ring kit

Benefits
- Great quality ... use with confidence
- Weighs from only 23kgs
- Ready to pump in minimum amount of time
- Easily replaced if thread damaged, easy to service check valve without dismantling pump
- Tried and proven with established service networks throughout the world
- Feet absorb vibration - stable in operation
- Protects pump, facilitates transport on site
- Pumps more water at high pressure, saves fuel
- Enables choice of plumbing sizes (1" or 1 ¼")
- Lets more water into the pump
- Larger water passages mean more water efficiency, lower fuel costs
- Top quality, ensures outlet cap security
- Fast, easy pump draining
- Facilitates fast self priming
- Enables pump to be used in some herbicide or insecticide spraying applications
